Wedding Welcome

Surprise out-of-town wedding guests with a hospitality basket in their hotel room. It sets a sweet tone for the event and lets them know they're appreciated.

Need some ideas about what to include? Event planner William Fogler offers the following tips:

- Do a theme for the basket. For a tropical destination wedding, toss in some sunblock and custom flip-flops.
- Select items related to the bride and groom, like a favorite candy.
- Stick in a thank-you note, telling the guests how special they are.
- Use an innovative, reusable container like a tote, straw hat or backpack.
- Include pertinent scheduling of wedding events and maps.
- Add a regional or neighborhood publication, as well as a city guide so guests can make the most of what the wedding locale has to offer.
- Have fun with the hospitality basket and the guests will too!
